**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Southwesterly winds on the tops will slow progress to some extent, a notable chill expected too.

Forecast for Sunday 13 Sep 2020

Weather: A dry day expected, extensive low cloud in the morning. Cloud breaking in the afternoon to allow some sunny periods, and becoming very warm.

Maximum wind: Southwesterly gusts to 50 mph on the higher summits, making for slow progress

Chance of cloud free mountain/hill tops above 700m: A good deal of low cloud between 500 and 700 metres through the day. Some breaks developing in shelter at times, but these likely to be unreliable. Cloud tending to thin and break more widely in the evening.

Visibility: Hazy at first, then becoming good

Temperature: **Valleys:** Plus 8 rising to 21 Celsius
At 700m: Plus 8 rising to 13 Celsius
Freezing level: Above summits
